### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the Proof of Completion of Work is filed.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to

exceed.....5.0.....cubic feet per second, but not to exceed 600.0  
acre-feet annually, and not to exceed a yearly duty of 3.0 acre-feet  
per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before.....April 7, 2000.

Proof of completion of work shall be filed before.....May 7, 2000.

Application of water to beneficial use shall be filed on or before.....April 7, 2003.

Proof of the application of water to beneficial use shall be filed on or before.....May 7, 2003.

Map in support of proof of beneficial use shall be filed on or before.....May 7, 2003.

Completion of work filed.....JUL 28 2003

Proof of beneficial use filed.....

Cultural map filed.....

Certificate No.....Issued.....

IN TESTIMONY WHEREOF, I, MICHAEL TURNIPSEED, P.E.  
State Engineer of Nevada, have hereunto set my hand and the seal of my

office, this 7th day of April

A.D. 1998

*Michael Turnipseed*  
State Engineer

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The well under this permit must be constructed as to drive groundwater exclusively from below the clay zones.

The period of use is limited to the period of use of the Humboldt River Decree.

A monitoring program must be submitted for approval by the State Engineer within 90 days of the issuance of this permit. The monitoring program must be developed in cooperation with the Pershing County Water Conservation District.
